## **School Uniform Review 2018**

Dear Parents, Caregivers and Friends

I am writing to inform you that the school will be reviewing the current school uniform and we will be surveying the school community to see which items of uniform require changing and those that will remain.

Once we have surveyed parents and caregivers a committee will be formed with 4 Parent Representatives, Two Staff members, the Principal and one Assistant Principal.

The committee will collate all the data responses received via the survey and proceed to contact distributors for samples and pricing which will provide some options. These options will be communicated to the school community for feedback and suggestions.

Decisions will then be made by the committee based on feedback received from the community and the costing and availability of distributors to supply items in a cost effective, timely manner.

Any uniform changes will be phased in over a two to three year period allowing plenty of time for current uniforms to be worn until they require replacing.

***Important note: Final decisions concerning the school uniform changes will be made by the Principal in consultation with the School Board.***

### **Timeline for this process**

**Term One**      ***Survey to School Community***

**Term Two**      ***Formation of committee***

**Term Three**    ***Final decisions on selected items and distributor/s***

**Term Four**    ***Reviewed new items can be ordered for the beginning of Term One 2019***

Yours sincerely

Rob Romeo  
Principal
